Select Drugs and Products℠ Program

The Plan's Select Drugs and Products Program allows you to take an active role in helping the Plan reduce your costs, while allowing the Plan to continue to offer generous healthcare benefits to all Participants. The Plan is sponsoring this program at no cost to you. If you are prescribed a drug included on the Plan's Select Drugs and Products℠ List, you must enroll in the Program to comply with benefit requirements.

Plan Members Taking Specialty Drugs – **1** – **2** – 3

1 The Plan's specialty contact center will initiate outreach to you by text message or phone call.

2 Complete the digital enrollment application which will allow the Plan's specialty contact center to match you to alternate funding programs.

Note: you may be asked to provide household size and income information.

3 Your Plan Case Coordinator will coordinate with you and your pharmacy to ensure you are able to get your medication in a timely manner.

A Plan Case Coordinator is available (8:00 am to 8:00 pm CST) to guide you through the enrollment process and the program. Please respond to calls from your Case Coordinator in a timely manner.

This program will not share your information with any 3rd party solicitors. If you would like to complete your application over the phone or speak with a Plan Case Coordinator, please call (877) 422-1776. Common questions and answers about your Plan's Select Drugs and Products™ Program can be found on the next page.

There are two reasons why you are receiving this important message:

Your Plan has added an important program that includes the Plan's Select Drugs and Products™ List*.

Your Plan is continuing to offer generous specialty drug benefits while attempting to reduce costs to you and the Plan.

*The Plan's Select Drugs and Products™ List includes drugs typically prescribed by a specialist for multiple sclerosis, hepatitis C, Crohn's disease, hemophilia, cancer, psoriasis, rheumatoid arthritis, transplants, HIV/AIDS, and other complex conditions.

How It Works

What is the Select Drugs and Product Program?

The Plan's Select Drugs and Products Program provides advocacy services to assist you by identifying and facilitating your enrollment in programs that may reduce or eliminate your out-of-pocket costs for eligible specialty drugs, products, and services. A Plan's Case Coordinator will contact you to guide you through the program. The Plan continues to offer generous healthcare benefits but needs your help to continue to meet this goal.

Your active role in helping the Plan reduce its costs and yours is important. The Plan is sponsoring this program at no cost to you. However, you may be required to pay a portion of the cost to acquire your specialty drug, product or service depending on specific situations.

What is the Enrollment Requirement for the Select Drugs and Products™ Program?

The Plan requires you to enroll in its Select Drugs and Products Program by following the three-step process outlined above, which starts with a response to texts or calls from the Plan's Case Coordinator in a timely manner.

What happens after I enroll in the Select Drugs and Products Program?

After enrolling in the Plan's Select Drugs and Products Program, you will be asked to complete certain documentation related to the alternate funding programs identified by your Case Coordinator. This will include providing required documents and information to the alternate funding program from you and may require your prescriber's participation as well. Your timely responses will help you avoid any delays in processing your documentation.

Your Plan Case Coordinator will help you obtain your eligible specialty drugs, products or services and reduce your out-of-pocket costs by coordinating alternative forms of funding. After your acceptance into an alternate funding program, your Plan Case Coordinator will contact you before and after each refill to ensure there is no disruption in your treatment.

Call toll-free at (877) 422-1776 to speak to a Plan Case Coordinator, M-F, 8AM to 8PM CT.
