Key Dates:

- **April 1, 2021 to May 1, 2021** applications accepted.
- If more applications are received than available seats, a random selection will be conducted.

Additional Policy Related Information:

- An assignment through controlled open enrollment shall remain in effect until the highest grade available in that school.
- Students assigned to a school through controlled open enrollment are not automatically entitled to enter choice programs at the school unless they meet eligibility requirements and there is capacity at the school after the placement of any students in the wait pool for that particular choice program.
- Students assigned through this process will not continue to the next school level (elementary school to middle school, middle school to high school) unless assigned to an available school at the next school level at the applicable time.
- Siblings of students already attending a school on a controlled open enrollment assignment are not automatically entitled to attend the same school as his/her sibling. If the requested receiving school is not on the current approved list, siblings will not be permitted to attend the same school on a controlled open enrollment assignment.
- **No transportation** is provided by SCPS for approved controlled open enrollment transfers.
- For comprehensive policy information please refer to School Board Policy 5121.
